Women Obtain Mrs. Pinkham'e Advice and Help.

the Has Guided Thousands to Health. How Lydia E. Pinkham's Vegetable Compound Cured Mrs. Fred Seydel.

It is a great satisfaction for a woman to feel that she can write to the most private and confidential details about her illness, and know that her letter will be seen by a wo-

more experience in treating female ills than any living person.

Over one hundred thousand cases of female diseases come before Mrs. Pink ham every year, some personally others by mail, and this has been go ing on for twenty years, day after day Surely women are wise in seeking advice from a woman of such experience, especially when it is absolutely

free. Mrs. Pinkham never violates the confidence of women, and every testimo-nial letter published is done so with the written consent or request of the writer, in order that other sick women may be benefited as they have been.

Mrs. Fred Seydel, of 413 North 54th
Street, West Philadelphia, Pa., writea; Dear Mrs, Pinkham:-

Dear Mrs, Pinkham:—
"Overa year ago I wrote you a letter asking advice, as I had female ills and could not carry a child to maturity. I received your kind letter of instructions and followed your advice. I am not only a well woman in consequence, but have a beautiful baby girl. I wish every suffering woman in the land would write you for advice, as you have done so much for me."

Just as surely as Mrs. Seydel was ured, will Lydia E. Pinkham's Vegetable Compound cure every eured, will Lydia E. Pinknams Vegetable Compound cure every woman suffering from any form of

No other medicine in all the world has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound. Therefore no prudent woman will accept any substitute which a druggist may offer.

If you are sick, write Mrs. Pinkham,

Lynn, Mass, for special advice. It is free and always helpful.

THE OPPORTUNITY OF TODAY The opportunity for the man with little means is probably better today in the prairie states of the Southwest than ever before in the history of the nation. To be sure, there is not the vast open choice of land for the homesteads that existed in the 70s. The lands then taken up under Government laws are now prosperous farmer and ranches. There is need of more hunds to develop the country. In the Southwest, Indian Territory, Oklahoms and Texas, are vast arous of unicaproved land not yet producing the crops of which it is committed.

MISSOURI STATE NEWS.

Confident They Have Struck Oil. Forty years ago a party of glaves vere searching for water on a 160 acre tract of ground near Monroe City. owned by a planter who has long since passed away. They sunk a well to a lepth of 60 feet, where they encountered a rock stratum which emitted a burst of gas, followed by a flow of liquid which evidently was not water. Frightened, they ran to their master who investigated. Experts pro-nounced the liquid to be petroleum of standard grade. Interested in more weighty matters, the planter plugged the well to a depth of 20 feet and went his way, never to reopen it.

Another group of experts, called to the scene recently, have confirmed the statement that the well is an oil producer. As soon as the company can be financed the work of production will proceed rapidly. The well has already been worked secretly to determine its worth and the gentlemen interested are confident that they have "struck oil."

Women Secured Life Certificates. State Superintendent of Public Schools Carrington recently held ex aminations in St. Louis, St. Joseph Jefferson City and Lamar for the cer tification of teachers applying for state license. Fifty-five teachers wrote 261 papers on the several branches, and as a result 11 certificates were issued the other day by Supt. Carrington, Five of these were for life and the other six for five years, It will be noticed that the life certificates were all taker out by ladies, as follows: Life certifi-cates—Bessie B. Of Wide Interest.

Breed, Wis., June 26.—Special.—Chas. Y. Peterson, Justice of the Peace for Oconto Co., has delivered a judgment that is of interest to the whole United States. Put briefly, that judgment is. "Dodd's Kidney Pills are the best Kidney medicine on the market to-day."

And Mr. Peterson gives his reason for this judgment. He says: "Last winter I had an aching pain in my back which troubled me very much. In the morning I could hardly straighten my back. I did not know what it was but an advertisement led me to try Dodd's Kidney Pills. After taking one box I can only say they have done more for me than expected as I feel as well now as ever I did before." Pain in the back is one of the first symptoms of Kidney disease. If not cured by Dodd's Kidney Pills it may develop into Bright's Disease, Diabetes. Rheumatism or some of the other deadly forms of Kidney Disease.

Don't Poison Baby.

CORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CON-TAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.
